

QuickZip™ Lightbox

ASSEMBLY INSTRUCTIONS

BOX CONTENTS

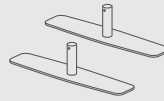

(4) Connected Poles

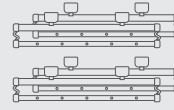

(2) Bottom Corners

(2) Top Corners

(2) Support Feet

(4) LED Lights

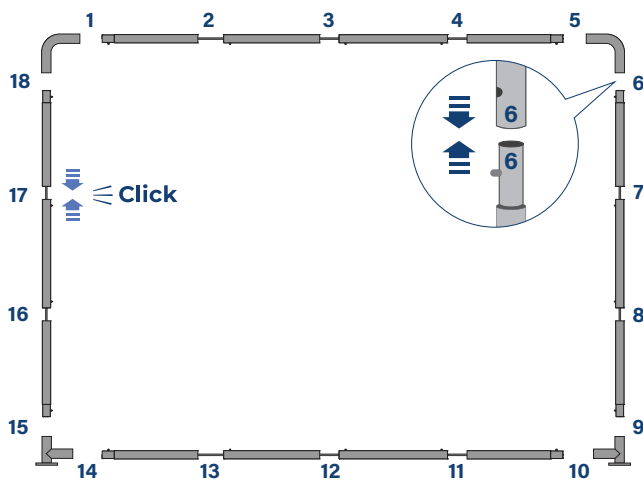

(1) Backdrop Graphic
(Ships Separately)

1

Assemble the Frame

Connect the poles by matching up the numbers.

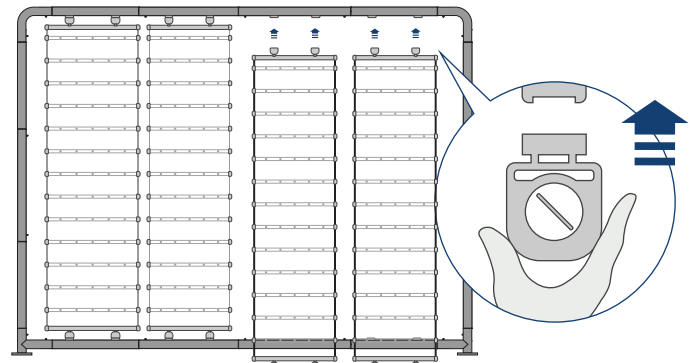

Match numbers 1 to 1, 2 to 2, etc.

2

Attach LED Lights

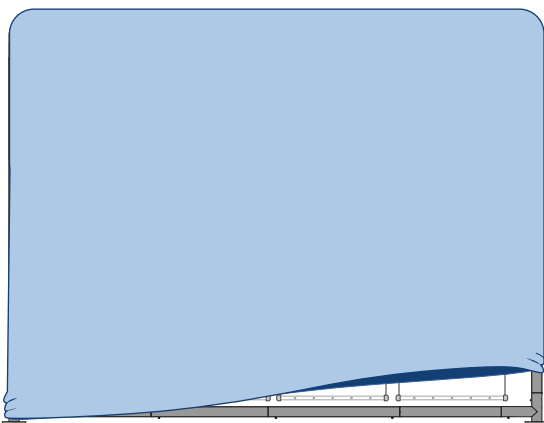

Attach the LED lights to the frame and secure by clipping the buckles together.

3

Install the Graphic

Carefully pull the graphic print over the frame, ensuring both sides are pulled down at the same time.

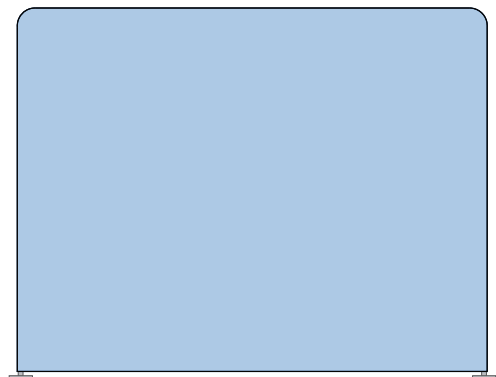

It helps to have a second person to pull the other side simultaneously.

4

Stand Frame Up, Turn On Lights

Stand the frame upright, plug the power cable into the outlet and you're ready to go!

You can adjust the frame alignment by having a person on each side gently shift the top corners until the display stands completely straight.
